Purpose

Carole Park State School is committed to providing a safe, respectful and disciplined learning environment for all students, staff, parents and visitors.

Carole Park State School's Student Code of Conduct sets out the expectations, values and processes we use in our school to promote a productive, effective whole school approach to discipline.

Its purpose is to facilitate high standards of behaviour from all in the school community, ensuring learning and teaching in our school is prioritised, where all students are able to experience success and staff enjoy a safe workplace.

Principal's Foreword

Carole Park State School has a long and proud tradition of providing high quality education to students from across our catchment and region.

Our Code of Conduct for Students focuses on developing a safe, disciplined and supportive school environment and responsible behaviour in all students as well as providing opportunities for students to develop positive relationships. Our plan achieves this by explicitly teaching social and academic behaviours to all students that reinforces a school wide approach to positive behaviour.

In our supportive environment we value:

- all members of the school have the right to a safe learning environment
- a consistent approach to social and academic behaviour from all staff and students
- providing opportunities for all members to succeed
- a collaborative team approach
- training and skill development for all members of the school.

Our school has high expectations for all members of our community to engage in positive communications and be active participants in your child's learning.

The expectations at Carole Park State School are:

- Be Safe
- Be Respectful
- Be a Learner

These expectations are explicitly taught in class each day. These expectations are supported by the 5 Values that our school community aspire our students to understand and demonstrate as citizens. (Appendices 4b)

The 5 values are:

- Courageous
- Resilient
- Optimistic
- Caring
- Selfless

These expectations and values have been used in the development of this Student Code of Conduct, with the aim of helping shape and build the skills of all our students to be confident and self-disciplined citizens in our community. Our school staff believe that communication and positive connections with other people are the most valuable skills our communities need now and in the future.

Our Student Code of Conduct provides an overview of the school's local policies on use of mobile phones and other technology, removal of student property and the approach to preventing and addressing incidents of bullying. It also details the steps school staff take to educate students about these policies and how students are explicitly taught the expected behaviours. Finally, it details the consequences that may apply when students breach the expected standards of behaviour, including the use of suspension or exclusion.

I thank the students, teachers, parents and other members of the community for their work in bringing this Carole Park State School Student Code of Conduct together over the last six months. Your interest and views shared through the process of developing this document have been invaluable. It provides a clear explanation of what we expect from students and how we will support them to meet those expectations.

P&C Statement of Support

Currently, Carole Park State School does not have a Parent and Citizens Association.

Parents are encouraged to familiarise themselves with the Carole Park State School Student Code of Conduct, and to take time to talk with their children about the expectations and discuss any support they may need. In particular, we want to emphasise the systems in place to help students affected by bullying.

Our previous P&C has worked diligently with the school to address the issue of Bullying. Bullying is a community-wide issue in which we all have a role to play in combating; however, it can have particularly devastating impacts on our young people. It is important that every parent and child of the Carole Park State School community work together and report suspected or puposful bullying behaviour. This includes cyberbullying, through the misuse of social media or text messaging. It is important that parents and children know that schools provide support and advice to help address problems of bullying. Please refer to the section that outlines the management of bullying incidents.

School Student Leaders' Statement

The year 6 students were involved in the development of the Carole Park State School, Student Code of Conduct for 2020. We have represented students on the consultation committee, provided feedback on draft materials and put forward the views of young people on a range of issues affecting their lives at school. Throughout the year, we will continue to work with the school administration team and the Carole Park State School, P&C Association on how the Student Code of Conduct is working, identify areas for improvement and present alternative options or suggestions for consideration.

Year 6 Student Leaders 2020

Consultation

The consultation process used to inform the development of the Carole Park State School occurred in three phases.

The first phase, we held a series of internal meetings with staff between March and August 2020. During these meetings, we examined a range of data sets on student and staff attendance, school disciplinary absences (SDA) and outcomes from the most recent School Opinion Survey. We identified strengths and successes from our previous school behaviour plan, and areas for further development.

In the second phase, we held consultation meeting with year 6 and 5 students. We also used the services of our Regional Positive Behaviour for Learning (PBL) coach to assist us in the understanding students had about behaviour management and support systems in our school. Through these discussions we gained insight and this was further examined by our school leadership team and PBL committee.

Finally, a draft Student Code of Conduct was prepared and distributed for comment to all members of the school community.

Review Statement

The Carole Park State School Student Code of Conduct will undergo annual minor updates to reflect changing circumstances, data and staff. A review is conducted every four years in line with the scheduled review process for the School Planning, Reviewing and Reporting cycle.

Data Overview

This section is used to report on key measures related to student discipline, safety and wellbeing using existing data sets available to all schools. This provides an open and transparent reporting mechanism for the school community on the perceptions of students, parents and staff about school climate, attendance and school disciplinary absences.

The Parent, Student and Staff Satisfaction data in the tables below is drawn from the School Opinion Survey. The School Opinion Survey is an annual collection designed to obtain the views of parents/caregivers, students and school staff from each school on what they do well and how they can improve.

Opinions on the school, student learning, and student wellbeing are sought from a parent/caregiver in all families and a sample of students from each state school.

Opinions on the school as a workplace are sought from all school staff and principals. There are additional questions for teaching staff on their confidence to teach and improve student outcomes. Principals are also asked about their confidence to lead the school and improve student outcomes.

There are four different confidential surveys for

- parents
- students
- staff
- principals.

School Disciplinary Absences (SDA)

Principals use a range of disciplinary consequences to address inappropriate behaviour. Suspensions, exclusions and cancellations of enrolment are only used as a last resort option for addressing serious behaviour issues. Principals balance individual circumstances and the actions of the student with the needs and rights of school community members.

All state schools are required to report School Disciplinary Absences (SDA) for the school year in their school annual report. There are four main categories of SDA: short suspension, long suspension, exclusion and charge-related suspension.

The following table shows the count of incidents for students recommended for each type of school disciplinary absence reported at the school.

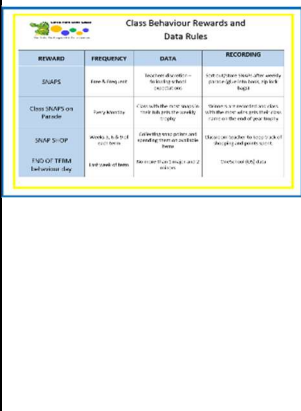

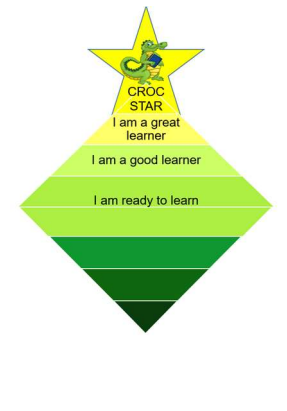

CAROLE PARK STATE SCHOOL DISCIPLINARY ABSENCES			
Type	2018	2019	2020

Learning and Behaviour Statement

All areas of Carole Park State School are learning and teaching environments. We consider the PBL (Positive Behaviour for Learning) framework to be the organisational tool under which we can maximise social and academic successful learning across the school. Our Student Code of Conduct outlines our systems for facilitating positive behaviours, preventing problem behaviour and responding to unacceptable behaviours. Through our school vision expectations for social and academic behaviours are explicit, assisting Carole Park State School to create and maintain a positive and productive learning and teaching environment. All school community members have a clear and consistent understanding of their expectations and role in the educational process.

Multi-Tiered Systems of Support

Carole Park State School uses multi-tiered systems of support (MTSS) as the foundation for our integrated approach to learning and behaviour. MTSS is a preventative, differentiated model grounded in practical strategies, targeted planning and data-informed decision-making. Based on a problem-solving model, in MTSS school staff match increasingly intensive interventions to the identified needs of individual students. Inclass students are provided with visual aides to support their understanding of the behaviour management process with in the school. Visuals that are represented in the classrooms include:

Tier	Prevention Description
1	<p>All students (100%) in the school receive support for their academic and behavioural development. Focus is on the whole-school implementation of both the Australian Curriculum and Positive Behaviour for Learning (PBL) expectations. This involves:</p> <ul style="list-style-type: none"> teaching behaviours in the setting they will be used (Appendices 2 and 3) being consistent when addressing challenging behaviour, while taking developmental norms and behavioural function into account providing refresher lessons and targeted recognition throughout the school year so skills are ready and likely to be used when students need them completing class readiness charts (Appendices 8, 9 and 10) asking students and their families for their perspectives on school climate, instruction, reinforcement, and discipline so improvements in Tier 1 may be made. students will be given the opportunity to re-engage after chill out time in another class. (Appendix 19)
2	<p>Targeted instruction and supports for some students (10-15%) are more intense than Tier 1 services, providing more time and specialisation in services from a range of school-based staff to enable students to meet the required academic and behavioural standards.</p> <p>Tier 2 supports build on the lessons provided at Tier 1, and may prevent the need for more intensive interventions. Tier 2 supports are provided to small groups of students with similar needs, offering more time and/or detailed instruction on the Australian Curriculum or particular aspects of Positive Behaviour for Learning (PBL) expectations. The types of interventions offered at this level will vary according to the needs of each school's student body, but all have certain things in common:</p> <ul style="list-style-type: none"> there is a clear connection between the skills taught in the interventions and the school-wide expectations. interventions require little time of classroom teachers and are easy to sustain variations within each intervention are limited students will receive an individual behaviour plan to support them in all areas of schooling and will be designed to provide the students with positive strategies to self regulate behaviour and a plan to support the student interventions have a good chance of working (e.g., they are "evidence-based" interventions that are matched to the student's need). designated thinking room. (Appendix 12) <p>If the school data indicates that more than 10-15% of students require targeted services, then a review of Tier 1 is needed to address the basic implementation and quality of instruction.</p>
3	<p>Individualised services for few students (2-5%) who require the most intensive support a school can provide. These are usually delivered in very small groups or on an individual basis.</p> <p>Tier 3 supports continue to build on the lessons and supports provided at Tiers 1 and 2, becoming more individualised and more intensive until teams can identify what is needed for a student to be successful. Tier 3 supports are based on the underlying reasons for a student's behaviour (their FBA) and should include strategies to:</p> <ul style="list-style-type: none"> PREVENT problem behaviour TEACH the student an acceptable replacement behaviour REINFORCE the student's use of the replacement behaviour MINIMISE the payoff for problem behaviour.

Tier 3 supports exist along a continuum. Many students can benefit from a simple (or brief) Functional Behaviour Assessment (FBA) that identifies unique strategies to help the student achieve success. A smaller percentage of students may require a more comprehensive FBA that includes a more thorough process for data collection, teaming, and problem solving. A much smaller percentage of students may need an intensive FBA and wraparound plan that includes personnel from outside agencies and rigorous problem solving procedures.

At CPSS, students will be case managed by a select team in the school, regional support staff and consultation will be conducted with the parent. The student will receive an individual behaviour plan that will consist of individual behaviour goals with strategies on how to achieve the goals and improve the behaviour. If behaviour continues to escalate under the individual behaviour plan, the school will work with regional advisors and the student code of conduct to support the student and to provide consequences under the code. (Appendix 17)

If the school data indicates that more than 2-5% of the student population requires individualised services, a review of Tier 1 and Tier 2 supports and organisation is recommended.

Consideration of Individual Circumstances

Staff at Carole Park State School take into account students' individual circumstances, such as their behaviour history, disability, mental health and wellbeing, religious and cultural considerations, home environment and care arrangements when teaching expectations, responding to inappropriate behaviour or applying a disciplinary consequence.

In considering the individual circumstances of each student, we recognise that the way we teach, the support we provide and the way we respond to students will differ. This reflects the principle of equality, where every student is given the support they need to be successful. This also means that not everyone will be treated the same, because treating everyone the same is not fair. For example, some students need additional support to interpret or understand an expectation. Others may benefit from more opportunities to practise a required skill or behaviour. For a small number of students, the use of certain disciplinary consequences may be considered inappropriate or ineffective due to complex trauma or family circumstances. These are all matters that our teachers and principal consider with each individual student in both the instruction of behaviour and the response to behaviour.

Our teachers are also obliged by law to respect and protect the privacy of individual students, so while we understand the interest of other students, staff and parents to know what punishment another student might have received, we will not disclose or discuss this information with anyone but the student's family. This applies even if the behavioural incident, such as bullying, involves your child. You can be assured that school staff take all matters, such as bullying, very seriously and will address them appropriately. We expect that parents and students will respect the privacy of other students and families.

If you have concerns about the behaviour of another student at the school, or the way our staff have responded to their behaviour, please make an appointment with the principal to discuss the matter.

Student Wellbeing

Carole Park State School offers a range of programs and services to support the wellbeing of students in our school. We encourage parents and students to speak with their class teacher if they would like individual advice about accessing particular services.

Learning and wellbeing are inextricably linked — students learn best when their wellbeing is optimised, and they develop a strong sense of wellbeing when they experience success in learning. The student learning and wellbeing framework supports state schools with creating positive school cultures and embedding student wellbeing in all aspects of school.

life through connecting the learning environment, curriculum and pedagogy, policies, procedures and partnerships for learning and life.

Dress Code

Students at Carole Park State School are to wear the approved school uniform that has been outlined by the school dress code. This dress code has been passed by the P&C in 2019. (Appendix 1)

Curriculum and pedagogy

Schools build the foundations for wellbeing and lifelong learning through curriculum embedding personal and social capabilities (self-awareness, self-management, social awareness and social management) in the implementation of the P-12 curriculum, assessment and reporting framework.

Schools acknowledge the positive impact that a meaningful relationship between teacher and students can have on students' academic and social outcomes. As part of the whole school's curriculum at we provide programs and source experts to teach the children about issue pertinent to the community.

Policy and expectations

Within a school community there are specific health and wellbeing issues that will need to be addressed for the whole school, specific students, or in certain circumstances.

Drug education and intervention

Carole Park State School has processes to manage behaviour related to behaviours related to drugs. The school consults with regional, departmental and community organisations to support students if exposed to drug related matters. All processes are in place to assist the and maintain the good order and management of all students and staff at school and to protect the health and safety of the student/s involved, other students, school staff and the wider community.

Specialised health needs

Carole Park State School works closely with parents to ensure students with specialised health needs, including those requiring specialised health procedures, have access to a reasonable standard of support for their health needs whilst attending school or school-based activities.

This means that appropriate health plans are developed and followed for students with specialised health needs, that staff are aware of the student's medical condition and that an appropriate number of staff have been trained to support the student's health condition.

Medications

Carole Park State School requires parent consent and medical authorisation to administer any medication (including over-the-counter medications) to students. For students requiring medication to be administered during school hours, the school can provide further information and relevant forms.

For students who require a long-term health condition requiring medication, parents need to provide the school with a Request to administer medication at school form signed by the prescribing health practitioner.

Carole Park State School maintains a minimum of one adrenaline auto-injector and asthma reliever/puffer, stored in the school's/campus first aid kit to provide emergency first aid medication if required.

Mental health

Carole Park State School implements early intervention measures and treatments for students where there is reasonable belief that a student has a mental health difficulty. This includes facilitating the development, implementation and periodic review of a Student Plan.

Suicide prevention

Carole Park State School staff who notice suicide warning signs in a student should seek help immediately from the school guidance officer, principal or senior officer on site.

When dealing with a mental health crisis, schools call 000 when there is an imminent threat to the safety of student in the first instance, and where necessary provide first aid. In all other situations, Carole Park State School will follow suicide intervention and prevention advice by ensuring:

- the student is not left alone
- their safety and the safety of other students and staff is maintained
- students receive appropriate support immediately
- parents are advised and advised to see their medical practitioner.
- all actions are documented and reported.

Suicide postvention

In the case of a suicide of a student that has not occurred on school grounds, Carole Park State School enacts a postvention response, by communicating with the family of the student and ensuring immediate support is provided to students and staff who may be affected.

Where a suicide has occurred on school grounds or at a school event, Carole Park State School staff immediately enact the School Emergency Management Plan and communicate with the family of the student and ensure immediate support is provided to students and staff who may be affected.

Student Support Network

Carole Park State School is proud to have a comprehensive Student Support Network in place to help the social, emotional and physical wellbeing of every student. Our Student Support Services in addition to the assistance provided by class teachers, we have a team of professionals whose dedicated roles are to help ensure our school is an inclusive and positive learning environment.

Students can approach any trusted school staff member at Carole Park State School to seek assistance or advice. If they are unable to assist they will provide guidance and help ensure the student is connected to the appropriate representative of the Student Support Service network.

Parents who would like more information about the student support roles and responsibilities are invited to contact the Student Support Services Co-ordinator, on the school phone number.

Whole School Approach to Discipline

Carole Park State School uses Positive Behaviour for Learning (PBL) as the multi-tiered system of support for discipline in the school. This is a whole-school approach, used in all classrooms and programs offered through the school, including sporting activities and excursions.

PBL is an evidence-based framework used to:

- analyse and improve student behaviour and learning outcomes
- ensure that only evidence-based practices are used correctly by teachers to support students
- continually support staff members to maintain consistent school and classroom improvement practices.

At Carole Park State School we believe discipline is about more than punishment. It is a word that reflects our belief that student behaviour is a part of the overall teaching and learning approach in our school. Our staff take responsibility for making their expectations clear, for providing supportive instruction about how to meet these expectations and strive to use behavioural incidents as opportunities to re-teach.

The development of the Carole Park State School Student Code of Conduct is an opportunity to explain the PBL framework with parents and students, and gain their support to implement a consistent approach to teaching behaviour. The language and expectations of PBL can be used in any environment, including the home setting for students. Doing everything we can do to set students up for success is a shared goal of every parent and school staff member.

Any students or parents who have questions or would like to discuss the Student Code of Conduct or PBL are encouraged to speak with the class teacher or make an appointment to meet with the principal.

PBL Expectations

Our staff are committed to delivering a high quality of education for every student, and believe all adults in the school, whether visiting or working, should meet the same three Positive Behaviour for Learning (PBL) expectations in place for students, Be Safe, Be Respectful, Be a Learner.

Below are examples of what these PBL expectations look like across the school. In addition, each classroom will have their own set of examples to help students and visitors understand the expectations and meet the standards we hold for everyone at Carole Park State School.

Be Safe

- Keep our hands, feet and other objects to ourselves.
- Follow instructions the first time.
- Move around the learning space as instructed.

Be Respectful

- Use polite and friendly language.
- Care for our school.
- Thank and encourage others.
- Look after all equipment.
- Put our hand up and waiting to speak.
- We are learning and our teachers are teaching.

Be a Learner

- Be at school, on time, everyday.
- Have learning materials ready to go.
- Be resilient.
- Be brave, have a go.
- Problem solve.
- Believe in ourselves.

Rewards

Students are awarded frequent and systematic awards in recognition of demonstrating the school expectations and values.

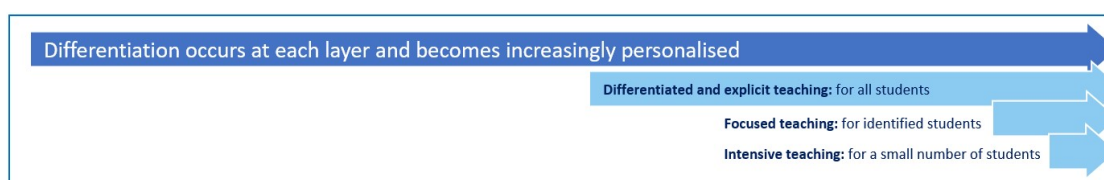

- Snaps
- Snap shop
- Whole class awards (posters)
- Behaviour Day
- Student of the Week
- Postcards (Appendix 24)

Differentiated and Explicit Teaching

Carole Park State School is a positive school environment that provides differentiated teaching to respond to the learning needs of all students (Appendix 20). This involves teaching expected behaviours and providing opportunities for students to practise these behaviours. Teachers reinforce expected behaviours, provide feedback and correction, and opportunities for practise.

Teachers at Carole Park State School have an inclusive mindset and look to vary what students are taught, how they are taught and how students can demonstrate what they know as part of this differentiated approach to behaviour. These decisions about differentiation are made in response to data and day-to-day monitoring that indicates the behavioural learning needs of students. This enables our teachers to purposefully plan a variety of ways to engage students; assist them to achieve the expected learning; and to demonstrate their learning.

There are three main layers to differentiation, as illustrated in the diagram below. This model is the same used for academic and pedagogical differentiation.

These three layers map directly to the tiered approach discussed earlier in the Learning and Behaviour section. For example, in the PBL framework, Tier 1 is differentiated and explicit teaching for all students, Tier 2 is focussed teaching for identified students and Tier 3 is intensive teaching for a small number of students. Each layer provides progressively more personalised supports for students.

Every classroom in our school uses the PBL Expectations Matrix, (Appendix 4a), as a basis for developing their behaviour standards. Using this matrix, the class teacher works with all students to explain exactly what each of the expectations look, sound and feel like in their classroom. The completed matrix is on display in every classroom, used as the basis of teaching expectations throughout the year and revisited regularly to address any new or emerging issues.

Focused Teaching

Approximately 15% of all students in any school or classroom may require additional support to meet behaviour expectations, even after being provided with differentiated and explicit teaching. These students may have difficulty meeting behavioural expectations in a particular period of the day or as part of a learning area/subject, and focused teaching is provided to help them achieve success.

Focused teaching involves revisiting key behavioural concepts and/or skills and using explicit and structured teaching strategies in particular aspects of a behaviour skill. Focused teaching provides students with more opportunities to practise skills and multiple opportunities to achieve the intended learning and expected behaviour.

Support staff, including teachers with specialist expertise in learning, language or development, work collaboratively with class teachers at Carole Park State School to provide focused teaching. Focused teaching is aligned to the PBL Expectations Matrix, and student progress is monitored by the classroom teacher/s to identify those who:

- no longer require the additional support
- require ongoing focussed teaching

- require intensive teaching.

Carole Park State School has a range of Student Support Services in place to help arrange and deliver focused teaching to students who need more support to meet expectations.

Intensive Teaching

Research evidence shows that even in an effective, well-functioning school there will always be approximately 5% of the student population who require intensive teaching to achieve behavioural expectations. Intensive teaching involves frequent and explicit instruction, with individuals or in small groups, to develop mastery of basic behavioural concepts, skills and knowledge.

Some students may require intensive teaching for a short period, for particular behaviour skills. Other students may require intensive teaching for a more prolonged period. Decisions about the approach will be made based on data collected from their teacher or teachers, and following consultation with the student's family.

For a small number of students who continue to display behaviours that are deemed complex and challenging, then individualised, function-based behaviour assessment and support plans and multi-agency collaboration may be provided to support the student. This approach will seek to address the acute impact of barriers to learning and participation faced by students who are negotiating a number of complex personal issues.

Students who require intensive teaching will be assigned an individual mentor at the school that will oversee the coordination of their program, communicate with stakeholders and directly consult with the student.

Legislative Delegations

Legislation

In this section of the Carole Park State School Student Code of Conduct are links to legislation which influences form and content of Queensland state school discipline procedures.

Delegations

Under the Education (General Provisions) Act 2006, state school principals are responsible for “controlling and regulating student discipline in the school”.

Principals are afforded a number of **non-delegable powers** to assist them to meet this obligation, including the authority to suspend, exclude or cancel the enrolment of a student at the school. These decision-making responsibilities cannot be delegated to other staff in the school, such as deputy principals.

The details of these responsibilities are outlined in the legislative instruments of delegation and instruments of authorisation provided below:

Disciplinary Consequences

The disciplinary consequences model used at Carole Park State School follows the same differentiated approach used in the proactive teaching and support of student behavioural expectations.

The majority of students will be confident and capable of meeting established expectations that are clear, explicitly taught and practised. In-class corrective feedback, sanctions and rule reminders may be used by teachers to respond to low-level or minor problem behaviours.

Some students will need additional support, time and opportunities to practise expected behaviours. Approximately 15% of the student population may experience difficulty with meeting the stated expectations, and even with focussed teaching, in-class corrective feedback, sanctions and rule reminders continue to display low-level problem behaviour. A continued pattern of low-level behaviour can interfere with teaching and learning for the whole class, and a decision may be needed by the class teacher to refer the student to the school administration team immediately for determination of a disciplinary consequence.

For a small number of students, approximately 2-5%, a high level of differentiated support or intensive teaching is required to enable them to meet the behavioural expectations. This may be needed throughout the school year on a continuous basis. The determination of the need will be made by the principal in consultation with staff and other relevant stakeholders. On occasion the behaviour of a student may be so serious, such as causing harm to other students or to staff, that the principal may determine that an out of school suspension or exclusion is necessary as a consequence for the student's behaviour. Usually this course of action is only taken when the behaviour is either so serious as to warrant immediate removal of the student for the safety of others, and no other alternative discipline strategy is considered sufficient to deal with the problem behaviour.

The differentiated responses to problem behaviour can be organised into three tiers, with increasing intensity of support and consequences to address behaviour that endangers others or causes major, ongoing interference with class or school operations.

Differentiated

When a student exhibits low-level and infrequent problem behaviour, the first response of school staff members is to remind the student of expected school behaviour, then advise them to change their behaviour so that it aligns with our school's expectations and values.

This may include:

- Pre-correction (e.g. "Remember, walk quietly to your seat")
- Non-verbal and visual cues (e.g. posters, hand gestures)
- Whole class practising of routines
- Corrective feedback (e.g. "Hand up when you want to ask a question")
- Rule reminders (e.g. "When the bell goes, stay seated until I dismiss you")
- Explicit behavioural instructions (e.g. "Pick up your pencil")
- Proximity control
- Individual positive reinforcement for appropriate behaviour
- Low voice and tone for individual instructions
- Give 'take-up' time for student/s to process instruction/s
- Break down tasks into smaller chunks
- Provide positive choice of task order (e.g. "Which one do you want to start with?")

Focussed

Targeted behaviour support is delivered in the explicit teaching of lessons designed by the school and informal conversations and discussion when certain inappropriate behaviours are displayed. Appropriate behaviour is constantly reinforced by all staff. At times problem behaviours may not be immediately regarded as severe, but the frequency of their behaviours may put these students' learning and social success at risk if not addressed in a timely manner. Individuals or groups displaying high level and frequent low level behaviours may be addressed through:

- Case Management – Holistic Student Assessment and Planner (Appendix 23)
- Student Support Services Referral (Appendix 22)
- Supported Play Group
- Time out of play
- Individual negotiated behaviour contracts
- Self-Management Plans
- Alternative play arrangements/class placements
- Risk Management Plans
- Parent support

Some students experience difficulty monitoring their own behaviour and require additional intervention and support. Staff members respond as per the behaviour for all behaviour incidents in order to clarify process of recording and referral.

Intensive

At Carole Park State School, all students who are considered to be at risk of significant educational underachievement due to their inappropriate behaviours are supported using a proactive problem solving approach. A functional analysis approach to assessing behavioural problems is adopted involving a systems approach which looks at the 'whole' student. The case manager for each student is the classroom teacher, however a support team approach is adopted with staff working collaboratively.

Intensive behaviour support is for students who:

- Demonstrate behaviours that have not improved with plans and strategies implemented with parent support – students continue to demonstrate persistent severe misconduct in the classroom or in the playground.
- Have had suspensions for serious misconduct and continue to demonstrate persistent severe misconduct in the classroom or in the playground.

Systemic assessment procedures and further support is implemented through:

- collation of data which gives an overview of problematic behaviours and consequences implemented by class teacher
- referral to Principal
- Case Management – Holistic Student Assessment and Planner (Appendix 23)
- referral to Advisory Visiting Teacher Behaviour for learning/behaviour support
- referral to Guidance Officer for assessment
- referral to Regional Supports that can assist school and student
- collaboration with staff for whole school initiatives and support (e.g. playground plan, graduated re-entry, etc.)
- continued collaboratin with student's parents

Support strategies used will be preventative, supportive and/or corrective.

Preventative

Action taken to prevent or minimise unnecessary disruption may include:

- review of effective learning and teaching practices
- classroom re-organisation

- positive modelling
- explicit teaching of expected behaviours as per The Positive Behaviour for Learning Expectations Teaching Matrix
- Individual Risk management Plan developed and implemented
- Individual Learning Support/Behaviour Plan revised and implemented

Supportive

Action taken to support the student and teacher may include:

- employment of extra resources for the student/teacher
- additional support from other staff in the school for the teacher and/or the student
- alternative arrangements for the student for a set period of time made with teacher/s in another class in the school
- part time educational program plan (Appendix 21) (negotiated between school and parent / caregiver)
- follow up and consultation with student/teacher regularly by administration staff

Corrective

Teacher management of severe misconduct will follow procedures in the:

- Student Code of Conduct
- student's Individual Risk Management Plan
- student's Individual Support Plan

Thinking Room Procedure

Thinking room is a strategy used to meet a need for students who display low level constant behaviour incidents, whether classroom or playground. It targets students with multiple incidents in the minor category that result in a major behaviour being recorded. Administration / School Leadership staff give Thinking Room consequences in combination with communication to parents / caregivers, and explicit conversation with the students regarding their behaviour. In this time students have the opportunity to discuss ways in restoring relationships, friendships, and natural consequences. (Appendices 13 and 14)

All behaviour that is contrary to school rules and the Code of Conduct will be managed by the Head of Departments and/or Principal based on the individual involved. Parents of the student involved will be informed of severe misconduct via a letter home. Consequences will be developed based on individual circumstances.

School Disciplinary Absences

A School Disciplinary Absence (SDA) is an enforced period of absence from attending a Queensland state school, applied by the Principal as a consequence to address poor student behaviour. There are four types of SDA:

- Short suspension (1 to 10 school days)
- Long suspension (11 to 20 school days)
- Charge-related suspension
- Exclusion (period of not more than one year or permanently).

At Carole Park State School, the use of any SDA is considered a very serious decision. It is typically only used by the Principal or delegated staff members when other options have been exhausted or the student's behaviour is so dangerous that continued attendance at the school is considered a risk to the safety or wellbeing of the school community.

Parents and students may appeal a long suspension, charge-related suspension or exclusion decision. A review will be conducted by the Director-General or their delegate, and a decision made within 40 school days to confirm, amend/vary or set aside the original SDA decision by the Principal.

The appeal process is a thorough review of all documentation associated with the SDA decision and provides an opportunity for both the school and the family to present their case.

in the matter. Time is afforded for collection, dissemination and response to the materials by both the school and the family. It is important that the purpose of the appeal is understood so that expectations are clear, and appropriate supports are in place to ensure students can continue to access their education while completing their SDA.

Re-entry following suspension

Students who are suspended from Carole Park State School may be invited to attend a re-entry meeting on the day of their scheduled return to school. The main purpose of this meeting is to welcome the student, with their parent/s, back to the school. It is **not a time** to review the student's behaviour or the decision to suspend, the student has already received a punishment through their disciplinary absence from school. The aim of the re-entry meeting is for school staff to set the student up for future success and strengthen home-school communication.

It is not mandatory for the student or their parents to attend a re-entry meeting. It may be offered as a support for the student to assist in their successful re-engagement in school following suspension.

Arrangements

The invitation to attend the re-entry meeting will be communicated via the suspension letter that has been given. Re-entry meetings are short, taking less than 10 minutes, and kept small with only the Principal or their delegate attending with the student and their parent/s.

A record of the meeting is saved in OneSchool, under the Contact tab, including any notes or discussions occurring during the meeting.

Structure

The structure of the re-meeting should follow a set agenda, shared in advance with the student and their family. If additional items are raised for discussion, a separate arrangement should be made to meet with the parent/s at a later date and time. This meeting should be narrowly focussed on making the student and their family feel welcome back into the school community.

Possible agenda:

- Welcome back to school
- Check in on student wellbeing
- Discuss any recent changes to school routine or staffing
- Offer information about supports available (e.g. guidance officer)
- Set a date for follow-up
- Thank student and parent/s for attending
- Walk with student to classroom

Reasonable adjustments

In planning the re-entry meeting, school staff will consider reasonable adjustments needed to support the attendance and engagement of the student. This includes selecting an appropriate and accessible meeting space, organising translation or interpretation services or supports (e.g. AUSLAN), provision of written and/or pictorial information and other relevant accommodations. The inclusion of support staff, such as guidance officers or Community Education Counsellors, may also offer important advice to ensure a successful outcome to the re-entry meeting.

School Policies

Carole Park State School has tailored school discipline policies designed to ensure students, staff and visitors work cooperatively to create and maintain a supportive and safe learning environment. Please ensure that you familiarise yourself with the responsibilities for students, staff and visitors outlined in the following policies:

- Temporary removal of student property
- Use of mobile phones and other devices by students
- Preventing and responding to bullying
- Appropriate use of social media

Temporary removal of student property

The removal of any property in a student's possession may be necessary to promote the caring, safe and supportive learning environment of the school, to maintain and foster mutual respect between all state school staff and students. The **Temporary removal of student property by school staff procedure** outlines the processes, conditions and responsibilities for state school principals and school staff when temporarily removing student property.

In determining what constitutes a reasonable time to retain student property, the principal or state school staff will consider:

- the condition, nature or value of the property
- the circumstances in which the property was removed
- the safety of the student from whom the property was removed, other students or staff members
- good management, administration and control of the school.

The Principal or state school staff determine when the temporarily removed student property can be returned, unless the property has been handed to the Queensland Police Service.

The following items are explicitly prohibited at Carole Park State School and will be removed if found in a student's possession:

- illegal items or weapons (e.g. guns, knives*, throwing stars, brass knuckles, chains)
- imitation guns or weapons
- potentially dangerous items (e.g. blades, rope)
- drugs** (including tobacco)
- alcohol
- aerosol deodorants or cans (including spray paint)
- explosives (e.g. fireworks, flares, sparklers)
- flammable solids or liquids (e.g. fire starters, mothballs, lighters)
- poisons (e.g. weed killer, insecticides)
- inappropriate or offensive material (e.g. racist literature, pornography, extremist propaganda).

* No knives of any type are allowed at school, including flick knives, ballistic knives, sheath knives, push daggers, trench knives, butterfly knives, star knives, butter knives, fruit knives or craft knives, or any item that can be used as a weapon, for example a chisel. Knives needed for school activities will be provided by the school, and the use of them will be supervised by school staff. In circumstances where students are required to have their own knives or sharp tools for particular subjects or vocational courses, the school will provide information about the procedures for carrying and storing these items at school.

**** The administration of medications to students by school staff is only considered when a prescribing health practitioner has determined that it is necessary or when there is no other alternative in relation to the treatment of a specific health need. Schools require medical authorisation to administer any medication to students (**including over-the-counter medications such as paracetamol or alternative medicines**).**

Responsibilities

State school staff at Carole Park State School:

- do not require the student's consent to search school property such as lockers, desks or laptops that are supplied to the student through the school;
- may seize a student's bag where there is suspicion that the student has a dangerous item (for example, a knife) in their school bag, prior to seeking consent to search from a parent or calling the police;
- consent from the student or parent is required to examine or otherwise deal with the temporarily removed student property. For example, staff who temporarily remove a mobile phone from a student are not authorised to unlock the phone or to read, copy or delete messages stored on the phone;
- there may, however, be emergency circumstances where it is necessary to search a student's property without the student's consent or the consent of the student's parents (e.g. to access an EpiPen for an anaphylactic emergency);
- consent from the student or parent is required to search the person of a student (e.g. pockets or shoes). If consent is not provided and a search is considered necessary, the police and the student's parents should be called to make such a determination.

Parents of students at Carole Park State School:

- ensure your children do not bring property onto schools grounds or other settings used by the school (e.g. camp, sporting venues) that:
 - is prohibited according to the Carole Park State School Student Code of Conduct
 - is illegal
 - puts the safety or wellbeing of others at risk
 - does not preserve a caring, safe, supportive or productive learning environment
 - does not maintain and foster mutual respect;
- collect temporarily removed student property as soon as possible after they have been notified by the Principal or state school staff that the property is available for collection.

Students of Carole Park State School

- do not bring property onto school grounds or other settings used by the school (e.g. camp, sporting venues) that:
 - is prohibited according to the Carole Park State School Code of Conduct
 - is illegal
 - puts the safety or wellbeing of others at risk
 - does not preserve a caring, safe, supportive or productive learning environment
 - does not maintain and foster mutual respect;
- collect their property as soon as possible when advised by the Principal or state school staff it is available for collection.

Use of mobile phones and other devices by students

Digital literacy refers to the skills needed to live, learn and work in a society where communication and access to information is dominated by digital technologies like mobile phones. However, the benefits brought about through these diverse technologies can be easily overshadowed by deliberate misuse which harms others or disrupts learning.

In consultation with the broader school community, Carole Park State School has determined that explicit teaching of responsible use of information and communication technology devices is a critical component of digital literacy. The knowledge and confidence

to navigate and use these technologies safely while developing digital literacy is a responsibility shared between parents, school staff and students. Students at Carole Park State School will only use school owned devices in school time and on school grounds. Devices are to only be used when supervised.

Responsibilities

At Carole Park State School, student are not allowed to use personal devices (mobile phones, tablets, laptops or desktops). All devices need to be handed in on arrival at school and turn off. Students are not allowed to use devices until they have left the school grounds at the end of a school day.

When on school devices it is **acceptable** for students at Carole Park State School to:

- complete only allocated school work on the
- develop appropriate literacy, communication and information skills
- use the approved department email address and owa system
- authoring text, artwork, audio and visual material for publication on the intranet or internet for educational purposes as supervised and approved by the school
- conducting general research for school activities and projects
- communicating or collaborating with other students, teachers, parents or experts in relation to school work
- accessing online references such as dictionaries, encyclopaedias, etc.
- researching and learning through the department's eLearning environment
- be courteous, considerate and respectful of others when using a mobile device
- log off the device they are on once they have completed their work or instructed to by a teacher.

It is **unacceptable** for students at Carole Park State School to:

- use information and communication technology devices in an unlawful manner
- download, distribute or publish offensive messages or pictures
- use obscene, inflammatory, racist, discriminatory or derogatory language
- use language and/or threats of violence that may amount to bullying and/or harassment, or even stalking
- insult, harass or attack others or use obscene or abusive language
- deliberately waste printing and internet resources
- damage computers, printers or network equipment
- commit plagiarism or violate copyright laws
- ignore teacher directions for the use of social media, online email and internet chat
- send chain letters or spam email (junk mail)
- knowingly download viruses or any other programs capable of breaching the department's network security
- use cameras anywhere a normal camera would be considered inappropriate, such as in change rooms or toilets
- invade someone's privacy by recording personal conversations or daily activities and/or the further distribution (e.g. forwarding, messages or emails) of such material
- use Bluetooth functionality to cheat during exams or assessments

At all times students, while using ICT facilities and devices supplied by the school, will be required to act in line with the requirements of the Carole Park State School Student Code of Conduct. In addition students and their parents should:

- understand the responsibility and behaviour requirements (as outlined by the school) that come with accessing the department's ICT network facilities
- ensure they have the skills to report and discontinue access to harmful information if presented via the internet or email
- be aware that:
 - access to ICT facilities and devices provides valuable learning experiences for students and supports the school's teaching and learning programs
 - the school is not responsible for safeguarding information stored by students on departmentally-owned student computers or mobile devices
 - schools may remotely access departmentally-owned student computers or mobile devices for management purposes
 - students who use a school's ICT facilities and devices in a manner that is not appropriate may be subject to disciplinary action by the school, which could include restricting network access
 - despite internal departmental controls to manage content on the internet, illegal, dangerous or offensive information may be accessed or accidentally displayed
 - teachers will always exercise their duty of care, but avoiding or reducing access to harmful information also requires responsible use by the student.

Preventing and responding to bullying

Carole Park State School uses the a wellbeing framework to promote positive relationships and the wellbeing of all students, staff and visitors at the school.

Our staff know student learning is optimised when they feel connected to others and experience safe and trusting relationships. Students who feel secure are more likely to be active participants in their learning and to achieve better physical, emotional, social and educational outcomes. Teachers who feel valued and supported are more likely to engage positively with students and build stronger connections within the school community. Parents who are positively engaged with their child's education leads to improved student self-esteem, attendance and behaviour at school. Enhancing the wellbeing of students and their educators delivers overall long-term social, health and economic benefits to the Australian community.

The Carole Park State School leadership team and PBL committee regularly meet to promote strategies to improve student wellbeing, safety and learning outcomes. The standing items on the agenda for each review are the core elements of the Australian Student Wellbeing Framework:

1. Leadership

Principals and school leaders playing an active role in building a positive learning environment where the whole school community feels included, connected, safe and respected.

2. Inclusion

All members of the school community actively participating in building a welcoming school culture that values diversity, and fosters positive, respectful relationships. This is underpinned by the school's Inclusion Framework.

3. Student voice

Students actively participate in their own learning and wellbeing, feel connected and use their social and emotional skills to be respectful, resilient and safe.

4. Partnerships

Families and communities collaborating as partners with the school to support student learning, safety and wellbeing.

5. Support

School staff, students and families sharing and cultivating an understanding of wellbeing and positive behaviour and how this supports effective teaching and learning.

At Carole Park State school, the leadership team and PBL committee conduct regular inquiries to ascertain strategies that enhance wellbeing, promote safety and counter violence, bullying and abuse in all online and physical spaces. The engagement of young people in the design of technology information and digital education programs for parents was a key recommendation from the [Queensland Anti-Cyberbullying Taskforce report](#) in 2018.

Bullying

The agreed national definition for Australian schools describes bullying as:

- ongoing and deliberate misuse of power in relationships through repeated verbal, physical and/or social behaviour that intends to cause physical, social and/or psychological harm;
- involving an individual or a group misusing their power, or perceived power, over one or more persons who feel unable to stop it from happening;
- happening in person or online, via various digital platforms and devices and it can be obvious (overt) or hidden (covert). Bullying behaviour is repeated, or has the potential to be repeated, over time (for example, through sharing of digital records);
- having immediate, medium and long-term effects on those involved, including bystanders. Single incidents and conflict or fights between equals, whether in person or online, are not defined as bullying.

Behaviours that do not constitute bullying include:

- mutual arguments and disagreements (where there is no power imbalance)
- not liking someone or a single act of social rejection
- one-off acts of meanness or spite
- isolated incidents of aggression, intimidation or violence.

However, these conflicts are still considered serious and need to be addressed and resolved. At Carole Park State School, our staff will work to quickly respond to any matters raised of this nature in collaboration with students and parents.

The following flowchart explains the actions Carole Park State School teachers will take when they receive a report about student bullying, including bullying which may have occurred online or outside of the school setting. (Appendices 15 and 16) Please note that the indicative timeframes will vary depending on the professional judgment of teachers who receive the bullying complaint and their assessment of immediate risk to student/s.

Carole Park State School - Bullying response flowchart for teachers

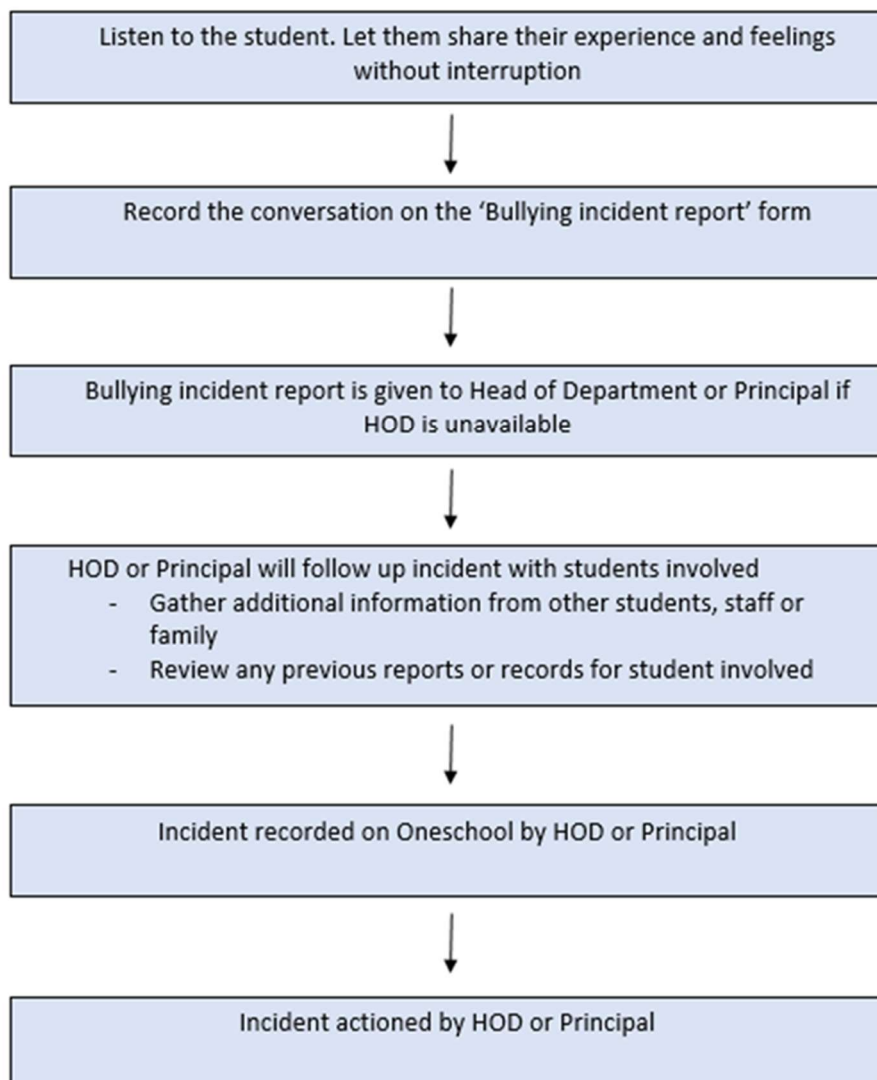

Please note these timelines may be adjusted depending on the unique circumstances and risk associated with each situation. This is at the professional judgment of the staff involved. Timeframes should be clearly discussed and agreed with student and family.

Cyberbullying

Cyberbullying is treated at Carole Park State School with the same level of seriousness as in-person bullying. The major difference with cyberbullying however, is that unlike in-person bullying, cyberbullying follows students into their community, their homes and their bedrooms, giving them no opportunity to escape the harassment or abuse during the evening, weekends or holidays.

In the first instance, students or parents who wish to make a report about cyberbullying should approach the regular class teacher (for students in primary year levels). The teacher will then report it to the Head of Department – Curriculum / Behaviour Support.

It is important for students, parents and staff to know that state school principals have the authority to take disciplinary action to address student behaviours that occur outside of school hours or school grounds. This includes cyberbullying. Parents and students who have concerns about cyberbullying incidents occurring during school holidays should immediately seek assistance through the [Office of the e-Safety Commissioner](#) or the Queensland Police Service.

Students enrolled at Carole Park State School may face in-school disciplinary action, such as detention or removing of privileges, or more serious consequences such as suspension or exclusion from school for engaging in behaviour that adversely affects, or is likely to adversely affect, other students or the good order and management of the school. This includes behaviour such as cyberbullying which occurs outside of school hours or settings, for example on the weekend or during school holidays. It also applies to inappropriate online behaviour of enrolled students that is directed towards other community members or students from other school sites.

Parents or other stakeholders who engage in inappropriate online behaviour towards students, staff or other parents may be referred to the Office of the e-Safety Commissioner and/or the Queensland Police Service. State school staff will be referred for investigation to the Integrity and Employee Relations team in the Department of Education. Any questions or concerns about the school process for managing or responding to cyberbullying should be directed to the principal. (Appendices 15 and 16)

How to manage online incidents that impact your school

Student protection

If at any point the principal forms a reasonable suspicion that a student has been harmed or is at risk of harm, they have a responsibility to respond in accordance with the [Student protection procedure](#).

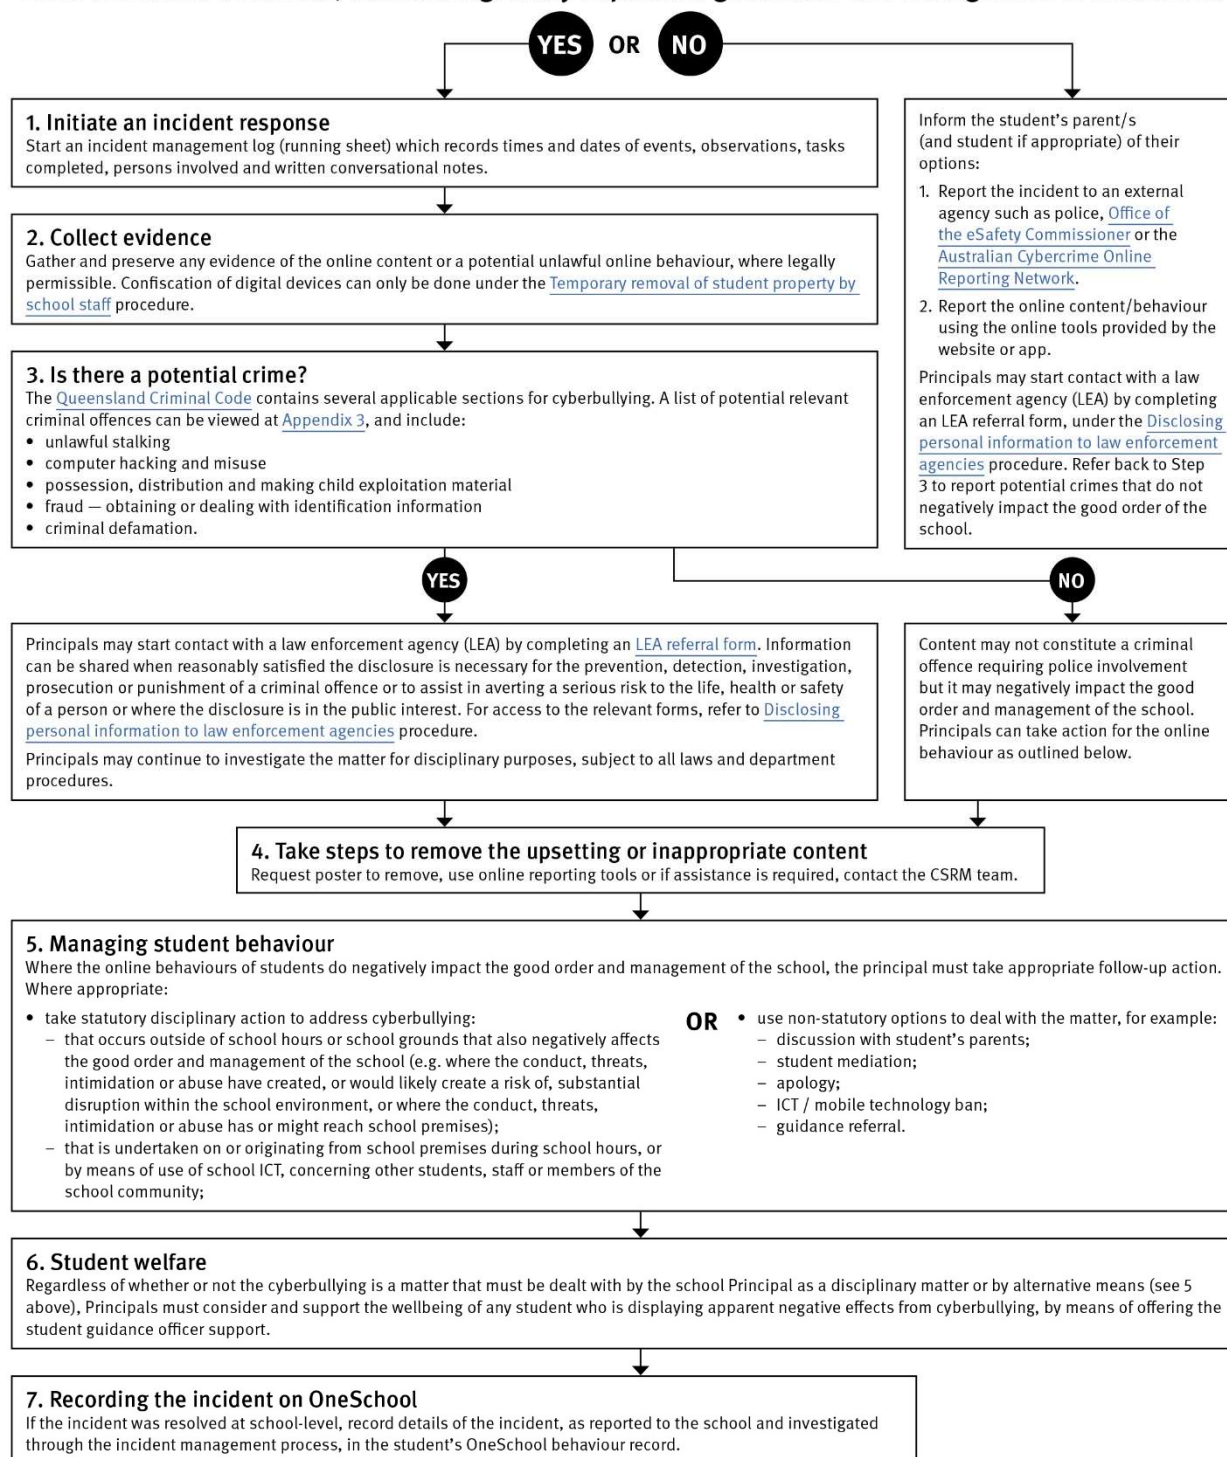

Explicit images

If the investigation involves naked or explicit images of children, staff should not save, copy, forward or otherwise deal with the content, as per the [Temporary removal of student property by school staff procedure](#). This includes onto OneSchool records. Refer to the investigative process outlined in 'Responding to incidents involving naked or explicit images of children' from the [Online Incident management guidelines](#).

Help

Refer to the [Online incident management guidelines](#) for more details, or if assistance is required, contact the Cybersafety and Reputation Management (CSRM) team on 3034 5035 or Cybersafety.ReputationManagement@qed.qld.gov.au.

Does the online behaviour/incident negatively impact the good order and management of the school?

Cybersafety and Reputation Management (CRM)

The Department of Education employs a dedicated team of experts to assist in maintaining the integrity of the department's reputation with regards to cybersafety and reputation management issues, effectively leading the development and implementation of departmental cybersafety processes.

This team provides **direct support for schools** to respond to concerns of inappropriate online behaviour and misuse of information and communication technology.

The team provides a [guide for parents](#) with important information about cybersafety and cyberbullying, and suggestions about what you can do if your child is a target or responsible for inappropriate online behaviour.

The team has also developed a [Cyberbullying and reputation management](#) (Department employees only) resource to assist principals in incident management.

For more information about cybersafety sessions at your school, or for assistance with issues relating to online behaviour, contact the [team](#) (Department employees only).

Student Intervention and Support Services

Carole Park State School recognises the need to provide intervention and support to all students involved in incidents of bullying, including cyberbullying.

Students who have been subject or witness to bullying have access to a range of internal support staff, as identified in the Student Support Services section earlier in this document. Students are, however, also encouraged to approach any staff member with whom they feel comfortable sharing their concerns, regardless of their role in the school. All staff at Carole Park State School are familiar with the response expectations to reports of bullying, and will act quickly to ensure students' concerns are addressed. Depending on the nature of the reported bullying incident, a formal plan of action may be developed and documented to support the implementation of strategies to assist the student.

Students who engage in bullying behaviours towards others will also be provided with support to assist them to use more socially acceptable and appropriate behaviours in their interactions. This includes counselling, social development programs, referral to mental health services or involvement in a restorative justice strategy. School disciplinary measures may also be used to reinforce the seriousness with which the community takes all incidents of bullying. These measures may include internal school suspension, withdrawal from social events or celebrations or more severe punishments such as suspension or exclusion from school.

Appropriate use of social media

The internet, mobile phones and social media provide wonderful opportunities for students to network and socialise online. While these technologies provide positive platforms for sharing ideas, they also have the potential to cause pain and suffering to individuals, groups or even whole communities.

It's important to remember that sometimes negative comments posted about the school community have a greater impact than expected. This guide offers some information about how to use social media in relation to comments or posts about the school community. Reputations of students, teachers, schools, principals and even parents can be permanently damaged — and in some cases, serious instances of inappropriate online behaviour are dealt with by police and the court system.

Being aware of a few simple strategies can help keep the use of social media positive and constructive:

- Before you post something online, ask yourself if the community or individual really need to know. Is it relevant, positive and helpful?
- Remember that what you post online is a direct reflection of who you are. People will potentially form lasting opinions of you based on what you post online.
- Be a good role model. If things get heated online consider logging out and taking a few moments to relax and think. Hasty, emotive responses could inflame situations unnecessarily.
- Be mindful when commenting, try to keep general and avoid posting anything that could identify individuals.
- A few years ago parents may have discussed concerns or issues with their friends at the school gate. Today with the use of social media, online discussions between you and your close friends can very quickly be shared with a much wider audience, potentially far larger than intended.
- Taking a few moments to think about the content you are about to post could save upset, embarrassment, and possible legal action.
- As a parent you have a role in supervising and regulating your child's online activities at home and its impact on the reputation and privacy of others. Parents are their child's first teachers — so they will learn online behaviours from you.

Is it appropriate to comment or post about schools, staff or students?

Parental and community feedback is important for schools and the department. If you have a compliment, complaint or enquiry about an issue at school, the best approach is to speak directly to the school about the matter, rather than discussing it in a public forum.

While many schools use social media to update parents of school notices, the department prefers that parents contact schools directly with a compliment, complaint or enquiry due to privacy considerations. Imagine if your doctor, accountant or banking institution tried to contact you to discuss important matters via Facebook.

If you have raised an issue with a school or know that another person has, consider refraining from discussing those details on social media, particularly the names of anyone involved.

Keep comments calm and polite, just as you would over the telephone or by email. If you encounter negative or derogatory content online which involves the school, hinders a child's learning and/or affects the school community at large, contact the school administration and principal.

Possible civil or criminal ramifications of online commentary

A serious instance of inappropriate online behaviour may constitute a criminal offence and become a police matter. For example, online content may substantiate the offence of 'using a carriage service to menace, harass or cause offence' (Criminal Code Act 1995 (Cth) s. 474.17). School staff may contact their union or obtain personal legal advice if they feel that online content seriously impacts their reputation. Defamatory online content may give rise to litigation under the Defamation Act 2005 (Qld).

What about other people's privacy?

If you upload photos of your children, be mindful of who might be in the background. You might be happy to share your child's successes with your friends and family via social media, but some parents are not. If you are tagging or naming students, consider that other parents may not want their child's name attached to images online.

What if I encounter problem content?

Taking the following steps may help resolve the issue in a constructive way:

- refrain from responding
- take a screen capture or print a copy of the concerning online content
- if you consider problem content to be explicit, pornographic or exploitative of minors, you should keep a record of the URL of the page containing that content but NOT print or share it. The URL can be provided to the school principal, or police, as needed for escalation of serious concerns
- block the offending user
- report the content to the social media provider.

Restrictive Practices

School staff at Carole Park State School need to respond to student behaviour that presents a risk of physical harm to the student themselves or others. It is anticipated that most instances of risky behaviour can be de-escalated and resolved quickly. On some rarer occasions, a student's behaviour may continue to escalate and staff need to engage immediately with positive and proactive strategies aimed at supporting the student to manage their emotional arousal and behaviour.

In some very rare situations, where there is immediate risk of physical harm to the student or other people, and when all other alternative strategies have failed to reduce the risk, it may be necessary for staff to use restrictive practices.

The use of restrictive practices will always be as a last resort, when there is no other available option for reducing immediate risk to the student, staff or other people. Restrictive practices are not used for punishment or as a disciplinary measure.

The department's **Restrictive practices procedure** is written with consideration for the protection of everyone's human rights, health, safety and welfare. There are six fundamental principles:

1. Regard to the human rights of those students
2. Safeguards students, staff and others from harm
3. Ensures transparency and accountability
4. Places importance on communication and consultation with parents and carers
5. Maximises the opportunity for positive outcomes, and
6. Aims to reduce or eliminate the use of restrictive practices.

Very rarely restrictive practices will be planned and staff will employ, when necessary, pre-arranged strategies and methods (of physical restraint/ mechanical restraint/ clinical holding) which are based upon behaviour risk assessment or clinical health need and are recorded in advance. The use of planned strategies will only be where there is foreseeable immediate risk consistent with the **Restrictive practices procedure**.

Seclusion will not be used as a planned response and will only be used in serious circumstances for managing an unforeseeable situation in an emergency. It will be used for the shortest time possible and in a safe area that presents no additional foreseeable risk to the student. In such emergencies, a staff member will observe the student at all times and seclusion will cease as soon as possible.

Following the use of any restrictive practice, a focused review will help staff to understand how they responded to the risk in any incident that involved the use of a restrictive practice. Staff will consider whether there are other options for managing a similar situation in the future. This strategy works well for reducing the use of restrictive practices.

All incidents of restrictive practices will be recorded and reported in line with departmental procedures.

Critical Incidents

It is important that all school staff have a consistent understanding of how to respond in emergencies involving student behaviour that seriously endangers the student or others. This consistency ensures that appropriate actions are taken to ensure that both students and staff are kept safe.

A critical incident is defined as an occurrence that is sudden, urgent, and usually unexpected, or an occasion requiring immediate action (e.g. in the community, on the road). The aim in these situations is to bring the behaviour of the student under rapid and safe control. It is not a time to try and to punish or discipline the student; it is a crisis management period only.

Staff should follow the documented plan for any student involved in regular critical incidents, which should be saved and available for staff to review in OneSchool.

For unexpected critical incidents, staff should use basic defusing techniques:

1. Avoid escalating the problem behaviour: Avoid shouting, cornering the student, moving into the student's space, touching or grabbing the student, sudden responses, sarcasm, becoming defensive, communicating anger and frustration through body language.
2. Maintain calmness, respect and detachment: Model the behaviour you want students to adopt, stay calm and controlled, use a serious measured tone, choose your language carefully, avoid humiliating the student, be matter of fact and avoid responding emotionally.
3. Approach the student in a non-threatening manner: Move slowly and deliberately toward the problem situation, speak privately to the student/s where possible, speak calmly and respectfully, minimise body language, keep a reasonable distance, establish eye level position, be brief, stay with the agenda, acknowledge cooperation, withdraw if the situation escalates.
4. Follow through: If the student starts displaying the appropriate behaviour briefly acknowledge their choice and re-direct other students' attention towards their usual work/activity. If the student continues with the problem behaviour, then remind them of the expected school behaviour and identify consequences of continued unacceptable behaviour.

Debrief: At an appropriate time when there is low risk of re-escalation, help the student to identify the sequence of events that led to the unacceptable behaviour, pinpoint decision moments during the sequence of events, evaluate decisions made, and identify acceptable decision options for future situations.

All incident and communications are documented and recorded on OneSchool.

Conclusion

Carole Park State School staff are committed to ensuring every student is supported to feel safe, welcome and valued in our school. There may, however, be occasions where parents need to raise a concern or make a complaint about an issue you feel is adversely affecting their child's education.

All Queensland state schools are committed to ensuring that all complaints - whether they relate to a school staff member or a school's operations - are dealt with in a fair and equitable manner. As a parent or carer, you can express dissatisfaction with the service or action of the Department of Education or its staff, including decisions made or actions taken in a school and/or by the local regional office.

As a complainant, it is your responsibility to:

- give us a clear idea of the issue or concern and your desired solution
- provide all the relevant information when making the complaint
- understand that addressing a complaint can take time
- cooperate respectfully and understand that unreasonable, abusive, or disrespectful conduct will not be tolerated
- let us know if something changes, including if help is no longer needed.

The Department of Education may not proceed with your complaint if your conduct is unreasonable.

In most instances, staff members are told of complaints made about them and offered the right of reply. A complainant also has the right to have a support person throughout the process.

The following three-step approach assists parents and school staff in reaching an outcome that is in the best interests of the student:

1. Early resolution: discuss your complaint with the school

The best place to raise any concerns is at the point where the problem or issue arose. You can make an appointment at the school to discuss your complaint with your child's teacher or the principal. You are also welcome to lodge your complaint in writing or over the phone. You can also make a complaint through [QGov](#).

Complaints may be lodged by telephone, writing or in electronic format. Email addresses can be accessed through the [schools directory](#).

2. Internal review: [contact the local Regional Office](#)

If, after taking the early resolution step, you are dissatisfied with the outcome of your complaint or how the complaint was handled, you can ask the local [regional office](#) to conduct a review. You need to submit a [Request for internal review form](#) within 28 days of receiving the complaint outcome.

3. External review: contact a review authority

if you are dissatisfied after the internal review, you may wish to contact a review authority, such as the Queensland Ombudsman, and request an independent, external review. More information about external review options is available at www.ombudsman.qld.gov.au.

Some matters need to be handled in a different way to school matters and will be referred to other areas in the department. These include:

- issues about harm, or risk of harm, to a student attending a state school, which must be managed in accordance with the [Student protection procedure](#).
- complaints about corrupt conduct, public interest disclosures; or certain decisions made under legislation, which will be dealt with as outlined in the [Excluded complaints factsheet](#).

Appendix 1: Student Dress Code

Overview

A student dress code consists of an agreed standard and items of clothing, which may or may not include a school uniform that state school students wear when:

- attending or representing their school
- traveling to and from school
- engaging in school activities out of school hours.

Student dress codes reflect school community standards and balance the rights of individual students with the best interests of the whole school community. They are consistent with health and safety considerations and anti-discrimination legislation. Student dress codes offer gender neutral uniform options for all students. Part 10 Dress Code (Education Act General Provisions 2006)

Student dress codes clearly explain and document standards of acceptable or reasonable dress in relation to:

- clothing worn by students, including headwear and footwear
- other aspects of personal presentation of students.

Student dress codes incorporate strategies to accommodate special needs and circumstances of students and strategies for managing noncomplying students. A student's non-compliance with school's student dress code requirements is not a ground for suspension, exclusion, or cancellation of enrolment from school. However, other appropriate disciplinary consequences (such as detention) can be applied in response to a student's non-compliance.

When applying a disciplinary consequence for non-compliance with the student dress code, a student should not be prevented from participating in essential curriculum activities except where necessary for reasons of safety (in which case, alternative educational activities are provided), nor receive a sanction that damages the student's academic or external career prospects (such as mentions in references or school reports), or disadvantage the student where the required student dress code items are not available because of circumstances beyond the control of the student and/or the student's parent.

Carole Park State School - Dress Code

Carole Park State School is a full uniform school. We have the support of the Parents and Citizens Association to promote 100% adherence to the uniform. Our school's dress code consists of an agreed standard and items of clothing, which includes a school uniform that Carole Park State School students wear when:

- attending or representing their school
- travelling to and from school; and
- engaging in school activities out of school hours.

The Carole Park State School Parents and Citizens Association support a student dress code policy because it believes a student dress code aims to contribute to a safe and supportive teaching environment through:

- ready identification of students and non-students at school;
- fostering a sense of belonging and school pride;
- developing mutual respect among students by minimising visible evidence of economic and social differences;
- develop self-discipline, and the need to realise that standards of dress apply to most occupations and social activities; and
- promoting an effective teaching and learning environment by eliminating the distraction of competition in dress and fashion at school.

Standards

With this in mind, the dress code stipulates the following standards:

Process – Out of Uniform

It is our expectation that students and parents take responsibility for meeting the school's expectations regarding uniform. The preferred behaviour that minimises disruption to student learning is as follows:

- A courtesy note from home explaining why the student is out of uniform.
- Student proceeds to the office or to classroom prior to class to borrow the correct uniform.
- The loan uniform may be returned at the end of that school day, or the following school day. The school will take responsibility for the uniform to be laundered.
- The student's non-uniform clothing will be held until the return of the loan uniform.

Students who present to class and are not acceptably dressed are to be referred directly to the classroom teacher who documents the students uniform status. Depending of the students situations the following actions will occur:

- Student can choose to change into the correct uniform as provided by the school.
- Parent will be contacted by a school staff member to see how the school can assist in achieving the desired outcome for the student.

If the student does not wear school uniform on the second day without communication from home, a detention will be given as a result. Parents / Caregivers can provide a note or communicate with classroom teacher to indicate if they are having uniform issues.

Students who choose to change into the correct uniform after being sent to the Student Reception will be required to undertake consequences to make up the time lost from the relevant class.

Students are offered these choices as prescribed under the provision of the Regulations of the Department of Education (see Appendix A).

NON-UNIFORM DAYS

Clothing will be clean, tidy and in good condition, appropriate for the school environment. A sleeved shirt **MUST** be worn. Apparel is not to contain offensive, suggestive or inappropriate wording, pictures or caricatures, and cannot be predominantly black.

No variation to footwear or jewellery is allowed. The final decision regarding appropriateness rests with the Principal.

Statement of Intent

A student dress code consists of an agreed standard and items of clothing, which may or may not include a school uniform that State school students wear when:

- Attending or representing their school;
- Travelling to and from school; and
- Engaging in school activities out of school hours.

Student dress codes provide clothing that aims to contribute to a safe and supportive teaching and learning environment through:

- Ready identification of students and non-students at school;
- Fostering a sense of belonging; and
- Developing mutual respect among students by minimising visible evidence of economic or social differences.

Student dress codes reflect school community standards and are consistent with occupational health and safety and anti-discrimination legislation.

Student dress codes clearly explain and document standards of acceptable or reasonable dress in relation to:

- Clothing worn by students, including headwear and footwear; and
- Other aspects of personal presentation of students.

Acceptable or reasonable dress refers to clothing or apparel that would be socially acceptable, although it might not conform to the school's student dress code. Inappropriate dress refers to clothing or apparel worn by students that is deemed to be:

- Offensive;
- Likely to disrupt, or negatively influence normal school operations;
- Unsafe for student or others; and
- Likely to result in a risk to health and safety of student or others.

Student dress codes incorporate strategies to accommodate special needs and circumstances of students and strategies for managing noncomplying

students. A student's non-compliance with school's student dress code requirements is not grounds for suspension, exclusion, or cancellation of enrolment from school. For behaviour other than non-compliance with student dress code, principals follow actions outlined in the SMS-PR-021: Safe, Supportive and Disciplined School Environment.

Schools with dress codes impose sanctions on a once only basis per episode of non-compliance. Sanctions are reflective of the severity and recentness of the non-compliance and are limited to one of the following:

- Imposing a detention for a student during lunch or after school (if after school, inform parents before detention occurs);
- Preventing student from attending, or participating in, any activity for which student is representing school; or
- Preventing student from attending or participating in any school activity that is not an essential school educational program.

Schools provide their Student Dress Code policy to parents at the time of enrolment as part of the Enrolment Package Responsibilities

Principals:

In developing a student dress code:

- Consult with parents or carers of children enrolled at their school, school staff and students;
- Consider consistency with relevant legislation, both State and Commonwealth;
- Incorporate issues of availability, affordability and functionality of items of clothing;
- Consider maturity of students, gender, disability, religious and cultural beliefs, socio-economic circumstances and students' sense of individuality and self-esteem in personal appearance;
- Develop a process for managing special circumstances of particular students;
- Develop and document strategies and sanctions for managing students not complying with dress code requirements; and
- Enforce aspects of student dress codes related to safety such as safe footwear, eye protection and hats, as required.

Carole Park State School PBL Placemat Flowchart

Step 1

- Students enter classroom
- Using a whiteboard marker students will:
 - Circle which zone they are in (blue, green, yellow or red)
 - Circle which school expectation is their goal for the day

Step 2

- After first break students have time to update their placemat
- Student will reflect, using a whiteboard marker:
 - Circle which zone they are in (if it has changed)
 - Circle how they think they are going with achieving their school expectation goal

Step 3

- After second break students have time to update their placemat for the day
- Student will reflect, using a whiteboard marker:
 - Circle which zone they are in (if it has changed)
 - Circle how they think they are going with achieving their school expectation goal

The purpose of the PBL Placemats are to allow students to communicate their state-of-mind and feelings for the day without having to verbalise how they are going. At all times, school expectations are to be followed. Students are to choose their focus for the day. This gives them a simple, measureable and attainable goal. Students may tailor their goal toward behaviours/situations in the previous days to allow them to reflect and improve their choices.

Appendix 11: Behaviour Flow Chart

Carole Park SS

Behaviour Flow Chart

1. Instruction – Student is given an instruction in response to behaviour demonstrated. Teacher will give the student a positive instruction on how to participate in the correct manner.

Examples:

- 'Move back to your seat, thank you.'
- 'Show me whole body listening, thank you.'

2. Redirect – Teacher will provide the student strategies to assist them in redirecting their behaviour to promote positive participation. Allow student take up time.

Examples:

- 'When I return you will have the next two questions completed.'
- 'Back to your seat, thank you.'

3. Problem-Solve – Teacher will inform student they are not being safe/respectful/a learner. Teacher will conference with student and provide a positive instruction on how to demonstrate the school expectations.

- 1on1 conferencing with the student using the language small verse big problem. Example; we can work together now to fix the small problem before it becomes a big problem.
- Teacher or student quietly move name on chart and teacher will explain the reason why.

4. Chill Out – Teacher informs the student that they will need chill out time, in a supervised space assigned at the teacher's discretion, for a negotiated period.

- Teacher or student quietly move name on chart and teacher will explain the reason why.
- Student is given the option to use the classroom chill out spot or go to another pre-arranged classroom. Teacher completes the chill out pass if student is going to alternate classroom.
- Teacher sets the timer (5/10mins) and student chooses a calm down tool. When time is up student checks in with teacher who uses the 3 key PBL questions. Student returns to learning.

5. Thinking Room – Students at the bottom section of the chart at 1pm, will be referred to the Thinking Room for 15 minutes at second play break to reflect on their behaviour. Classroom teacher completes a Thinking Room referral form to be handed to leadership team. A Thinking Room green letter is to be sent home to parent/caregiver by the classroom teacher. Classroom teacher to record behaviour on One School as a minor.

- A member of the leadership team will supervise the student in the thinking room.
- Reflection questions will be used.

6. Re-offence of behaviour after the Thinking Room, automatic Major Referral

- Contact Head of Department, Principal

7. Major Referral – Given by members of the school leadership team (HOC, Principal and Student Services Teacher).

Leadership will:

- Contact parent/caregiver concerning the incident and appropriate consequences.

- Students start in the 'I am ready to learn' zone at the commencement of each day.
- Differentiated process may apply to students on individual behaviour plans (Contact leadership team for support)
- Teachers are encouraged to move students into positive behaviour zones when displaying the 3 school expectations.

Date:

Dear Parents/Caregivers,

Today was referred to the Thinking Room for displaying behaviour that was inconsistent with the school expectations. Consequently, they missed second play break to sit in the Thinking Room and reflect on their choices.

..... was referred to the Thinking Room for the following reason

- ☐ Disruption
- ☐ Non-compliance
- ☐ Refusing to complete work
- ☐ Name calling
- ☐ Defiance
- ☐ Hitting or kicking or using objects to hurt others
- ☐ Not being in the right place
- ☐ Damaging property
- ☐ Swearing
- ☐ Lying / Cheating

Please return the confirmation slip below to your child's classroom teacher on the next school day. If you would like to discuss your child's inappropriate action/s, please contact your child's teacher to organise a mutually convenient time. It would be appreciated if you could discuss this action/s with your child to promote safe, respectful, learning behaviour in the future.

Thank you for your support and commitment to ensuring our school is a safe and positive environment for all children.

Regards,

Classroom Teacher

Carole Park State School Inclusion Framework

Vision: *Everyone Succeeding. Everyone is welcome.*

The Australian Curriculum informs the expected learning and the quality of learning expected that needs to occur as a developmental sequence of learning for our P-6 students. It is expected that purposeful reading opportunities will be planned across all Learning Areas.

CPSS pedagogical framework outlines the processes to support consistent whole school pedagogical practices that responds to our local context and is focussed on student achievement.

While the student is central to the implementation Age-Appropriate Pedagogies, teachers give consideration to the influence of school and community context and resources to inform decision-making. The flexibility of choice between 7 approaches and 11 characteristics allows teachers to make purposeful pedagogical decisions that support student learning.

"All Queensland state schools must comply with Commonwealth and state legislation which requires that, as far as practicable, people with a disability access and participate in education on the same basis as those without disability." Department of Education

Legislations Include:

- the Disability Discrimination Act 1992 (Cth) (DDA)
- the Disability Standards for Education 2005 (Cth) (DSE)
- the Anti-Discrimination Act 1991 (Qld) (ADA)

Policies Include:

- P-12 curriculum, assessment and reporting framework,
- Whole school approach to differentiating teaching and learning.
- Inclusive education policy statement booklet (PDF, 4.9MB)
- Inclusive education policy (PDF, 109KB)
- Whole school approach to differentiated teaching and learning

Part-time educational program plan (the Plan)

Privacy statement

The Department of Education (the department) is collecting personal information in this form for the purpose of completing a part-time attendance arrangement for the identified student in their education program.

The information will be shared with the school and department staff involved in the delivery of the student's Plan. The personal information collected will not be disclosed to any other person or agency unless you have given the department permission, or the department is required or authorised by law to disclose the personal information.

Your information will be stored securely. If you wish to access or correct any of the personal information on this form, or discuss how the personal information has been used, please contact your child's current state school or proposed state special school in the first instance. If you have a concern or complaint about the way your personal information has been collected, used, stored or disclosed, please also contact the department's regional office in the first instance.

About this Plan

This Plan is completed once all evidence has been considered as part of the personalised planning process for the student, consultation has occurred with the parent/s and/or student (if appropriate, having regard to age and other circumstances), and a part-time educational program is deemed a viable temporary option for the student. The Plan should be continuously monitored and reviewed, and effectiveness evaluated.
